一一四月日 SCHOOLS TO HELP OBSERVE CO-LUMBUS DAY.

Columbus Day, October 12, will be flittingly celebrated this year in the public schools of this State. State Superintendent Gilbert has issued a proclamation instructing all the teachers in the public schools of Kentucky to prepare for a patriotic celebration on that day. His proclamation follows:

"In co-operating with and at the request of the National Bureau of Education and Treasury Department. we urge all teachers, pupils, and school officials to observe October 12 as Columbus Day in celebration of the discovery of America. You will receive suggestive programs and we know that Kentucky will be found, as in all other patriotic efforts, at the forefront in making this day a memorable success, thus rendering a great service in the promotion of the ideals for which our nation is now

making heroic sacrifice. "I am writing the authorities at Washington that we will make good."

GREAT LOVE."

Internationally famous as the world's greatest exponent of the cinema art, David Wark Griffith is the creator of the screen's most remarkable triumphs. That his genius has accomplished more to elevate the motion picture to its present high standard than any other agency, is apparent to everyone. His sensa-tional departures in photoplay productions are film history and the mention of his name in connection with a screen offering always excites anticipation for something new in the way of advanced cinema technique.

Mr. Griffith spent many months in England and France during the past year and on his return to this country, he produced "Hearts of the World" which was presented with enormous success in New York. His latest offering, which deals with the great social transformation effected in England by the war, is "The Great M. I can now eat anything I want to Love," and this will be presented at the Paris Grand Opera House, Friday, October 4. Be Better Looking—Take Olive Tablets

If your skin is yellow-complexion pallid tongue coated—appetite poor—you have a bad taste in your mouth—a lazy, no-good feeling—you should take Olive Tablets.

Dr. Edwards' Olive Tablets—a substitute for calomel—were prepared by Dr. Edwards after 17 years of study with his patients. Dr. Edwards' Olive Tablets are a purely vegetable compound mixed with olive oil. You will know them by their olive color.

To have a clear, pink skin, bright eyes, no pimples, a feeling of buoyancy like childhood days you must get at the cause.

Dr. Edwards' Olive Tablets act on the liver and bowels like calomel—yet have no dangerous after effects.

They start the bile and overcome constipation. That's why millions of boxes are sold annually at 10c and 25c per box. All druggists. Take one or two nightly and note the pleasing results.

That is the way our men are going into battle. When the shrill whistle sounds the advance, out they go—their whole heart in the task before them. No power on earth can hold them back.

Forward!

The same sharp challenge to battle is sounding for us. We must answer in the same proud way—the way of our fighting men—the American way. We must lend the way they fight.

We must show the war-maddened Hun a united American people moving forward shoulder to shoulder, irresistibly, to Victory.

Our task is to supply the money, the ships, the guns, the shells that we must have to win. It is a tremendous task. We must do it as our fighting men do theirs—with the indomitable spirit of Victory.

We must work, and save, and lend with one thought only-TO FIGHT AND WIN.

BOURBON COUNTY'S THERE!

In a special dispatch from Its cor-In a special dispatch from its correspondent at Washington, D. C., the Louisville Courier-Journal places Bourbon county, Ky., as being one of the few and first to make a prompt report of "going over the top" in oversubscribing its quota for the Fourth Liberty Loan.

One paragraph in the dispatch stated:

"Here in Washington, where hundreds of Kentuckians are now employed, and where they eagerly grasp every little bit of news from the old State, it was a matter of pride to them when they learned that Bourbon county had gone over the top in the Loan drive. Paris, the county moved to Corbin, where Mr. Kiser is here, and the way they celebrated seat, has several representatives here, and the way they celebrated the good old town's accomplishment made Kentuckians feel mighty good. Bourbon county, Kentucky, has made a record that will stand out by itself when the Liberty Loan history is written in the reports."

The exact figures to date for an aggregate total in the Fourth Liberty Loan drive in Bourbon remain close around that given out Wednesday, \$827,150. To this must be added the subscriptions of the Louisville and Nashville employes, which are reported at about \$30,000. This has to be reported through Cleveland, O. It will bring the total up to \$854,150.

TRACTION OFFICIALS CONFER REGARDING "DINKY" SCHEDULE.

Several weeks ago, the Kentucky Traction and Terminal Co., instituted a slow schedule and new six-cent. fare rate for the operation of the city car on their lines in this city. The schedule and the rate both brought out many protests from patrons of the line,, with the result of causing considerable discussion and dissatisfaction. No action was taken in regard to the matter at the time.

Yesterday Messrs. J. R. Bush and J. H. Dailey, representing the Traction Co., came to Paris and held a conference with Mayor E. B. January and other interested officials in regard to restoring the old schedule and the old five-cent fare. Nothing was given out for publication after the conference, but enough was gathered to surmise that the changes will be made shortly to the entire saticfaction of the patrons and the traction people.

AN UNCONDITIONAL SUBRENDER

ONLY TERMS FOR GERMANY

(New York Commercial.) German newspapers savagely attack Senator Lodge for stating America's war aims in such clear words that none can twist their meaning. Pan-Germans declare that such expressions by the Republican leader of the Senate, which will have to ratify any treaty that may be signed, render a peace understanding impossible.

If we win this war there will be no such treaty of peace. The struggle will end with unconditional surrender. Germany will have no voice in settling the terms under which she will thereafter exist if Americans have their way. The Huns have forfeited all claims to consideration, and they can only obtain a negotiated peace by winning the war. We shall not destroy the German people, but we shall destroy Prussian militarism and the machinery of war that threatens the peace and safety of the

Senator Lodge has apparently suceeded in crystalizing public opinion in England, where his speech has been received with enthusiasm. He speaks for the majority of his countrymen who have determined to put an end to Germany's power to wage another war. Germany has refused to recognize or respect treaties. Her violation of the Belgian treaty was followed by similar violations of treaties with Russia and Roumania. Why let her sit at the council board when no faith can be put in her?

When the Civil War came to an end the fallen Confederate States signed no treaty with the United States Government. By their action, but not by written or spoken words, they submitted to the will of the victor. Germany has less right to ask for a peace of understanding or a negotiated treaty because she has violated the laws of God and man, and has put herself below the level of the most degraded savages. The civilized world combined nearly a century ago to suppress piracy and the slave trade on the high seas. Twenty-one nations are now united in a similar effort to end forever the new form of piracy and slave trading which the Huns introduced into this conflict. These modern pirates and slavers deserve no more consideration than those who disappeared from the high seas with the advent of the steam-

Senator Lodge put into words what is in our hearts. He is not restricted, in speaking for America, by official position or diplomatic usage. He has struck the keynote of this war as it now affects his country.
